Courses of Study

- **Audiology:** Audiologists diagnose, treat and monitor patients with hearing-related disorders as well as help them cope with their hearing loss. *Local and overseas universities.*
- **Biostatistics:** Biostatisticians collect and examine data for clinical trials and epidemiological (health and disease control) studies. *Overseas universities*

- **Business Analytics:** Using data to predict trends, analysts help healthcare institutions make evidence-based decisions. They also evaluate the effectiveness of intervention programmes and provide inputs to policymakers. *Local universities.*
- **Clinical Psychology:** Clinical psychologists assess, diagnose and treat mental and behavioural disorders in hospitals or community settings. They also design and implement mental health programmes. *Local and overseas universities.* Must have a good Honours degree in Psychology with a research thesis to demonstrate core research skills.
- **Epidemiology:** Epidemiologists are medical investigators who research the frequency and distribution of epidemics and diseases within the human population. *Overseas universities.*
- **Health Economics:** Health economists study the function of healthcare systems and health-affecting behaviours to help review healthcare policy. *Overseas universities.*
- **Medical Informatics:** Medical informaticists develop and maintain medical systems, software applications and databases for doctors, nurses and other clinical users. *Overseas universities.*
- **Nursing:** A highly-skilled and well-rounded profession with diverse responsibilities, nurses have exciting opportunities to develop their clinical skills to an advanced level, or move into management, teaching or research. *Overseas universities.*
- **Public Health:** Public Health officers promote health by reducing the burden of communicable diseases through effective disease control and preventive programmes. *Local and overseas universities.*
- **Speech Therapy:** Speech therapists diagnose and treat patients suffering from voice problems, cognition or swallowing disorders due to stroke, brain injury and degenerative disorders. *Local and overseas universities.*
